

Invitation Letter

Dear Sir/Madam,

The 4th International Conference on New Materials for Environment and Energy (NMEE 2026) will be held during **October 23-25, 2026** in **Wuhan, China**. It is organized by School of Materials and Chemistry, China University of Geosciences (Wuhan), co-organized by Lanzhou City University, and Academy of Eco Xi'an. On behalf of the organizing committee, we would like to cordially invite you to participate in NMEE 2026.

The NMEE series of conferences adheres to the core mission of "addressing global environmental and energy challenges, and promoting material science innovation and cross-sector collaboration", and focus on the strategic demands of sustainable development under the "dual carbon" goals. Dedicated to establishing an international, interdisciplinary, and industry-academia integrated academic exchange platform, NMEE brings together scientists, researchers, engineers, and industry representatives from around the world.

Organizer: School of Materials and Chemistry, China University of Geosciences (Wuhan)

Co-organizers: Lanzhou City University; Academy of Eco Xi'an

Host: Pashanhu of Scholars and Engineers - PASE

Conference Website: <http://www.icnmee.com/>

NMEE2026 is looking forward to meeting you in Wuhan.
